

JEFF SCHECHTMAN

For the past twelve years I have hosted a variety of talk shows on radio station 1440 KVON-AM in Napa, California. Currently I host both a guest driven interview show, each morning from 10:00 to noon, as well a live, afternoon drive show, focusing on local Bay Area issues from 4 pm to 6 pm each weekday.

In addition, for the past five years, I have also served a General Manager of both KVON-AM and KVYN-FM radio in the Napa Valley. Both cover the North San Francisco Bay Areas of Napa, Sonoma, Solano and Marin.

Prior to moving to the Napa Valley and rekindling the youthful passions of radio, journalism and public affairs, I had been involved in all phases of the independent motion picture business, including production, development, distribution and marketing. I served as both an Executive and as a Producer, for over twenty years. As well as producing several motion pictures for Warner Bros., Columbia, United Artists, Golden Harvest, and Avco-Embassy, I was Sr. Vice President of Production for New World Pictures, EVP of Production for New Line Cinema and founded and the international production and sales company PFG Entertainment.

I have long been active in State and National politics and in local community affairs. I graduated from Yale University '72 and attended Georgetown University Law Center.
