1995 Buell S2 Thunderbolt/88" motor - \$3800 (southeast michigan)

image 1 of 2

fuel: gas

Buell S2

transmission: manual

Very clean, one of a kind S2 Thunderbolt. 88 cubic inch motor built by Cycle Rama in Tampa Florida. Thunderstorm heads, pistons, 42mm Mikuni. Candy red paint job and candy red powdercoated frame, swingarm, and fairing bracket. Only 600 miles on motor build. I put new tires on it with only a few miles on them. Bike came with supertrapp megaphone muffler. I have a race series muffler as well. Either one I will sell it with. Upgraded the rear passenger foot pegs NOS, Corbin seat. New mirrors. New rear sprocket, New rear rotor, upgraded 9 pin front rotor. New brake pads front and rear. Have all paperwork from work done to bike by previous owner. The bike is fast, very fast for a Thunderbolt. I am sure I am forgetting lots of info so will add as we go. Just wanted to get this out there. Only reason I am selling is I just don't get to ride it. Only rode twice last summer. \$3800 or realistic offers. Will not find another S2 this clean and in this great of shape. Especially with an 88" motor. Thanks.
